

PREMIER RESOURCE GROUP
SOLUTIONS THROUGH SERVICE
an NSG Company

October 28, 2009

Dear Customers, Suppliers & Friends:

We are very excited to announce that North American Steel has merged their steel service center business with Premier Resource Group (PRG), a sister company within the Northern Steel Group (NSG) organization. We strongly believe this merger will enhance our level of sales coverage, customer service and improve our overall capabilities as a supplier.

Over the past six months, North American and PRG have been carefully considering the strategic direction for the two businesses. After in-depth analysis, it became clear that the two businesses are stronger together than functioning independently. We are anxious to enhance the businesses by drawing together the strengths of both companies. We are confident the melding of our two companies will improve our overall product knowledge and geographical capabilities.

For our customers and suppliers the move should be relatively seamless. We will continue to operate the North American office in Poland, Ohio as a sales location; and the PRG office in Lombard, Illinois will serve as the company headquarters. We will be contacting you soon to discuss the transition process in more detail.

The team(s) at North American and PRG truly appreciate the wonderful relationships we have established; and we look forward to continuing our business relationship with you and your organization in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Noble", with a long horizontal flourish extending to the right.

Mike Noble
President
